

DESOI PowerMix AKM-150

No. 12612

Description

The mixing device DESOI PowerMix AKM-150 is especially suitable for cement suspension which have to be mixed up at high speed. Due to the big mixing head and the high speed the material is optimally mixed up. For the mixing process a 60 litre material container can be used in which the mixing tool is submerged.

Material to be used

- Cement suspension

Delivery range

frame, tilt joint, mixer drive, mixing unit, incl. instruction manual

Advantages

- Mixing volume 35 l
- Powerful motor
- Easy operation and cleaning

1. Mixing device tilted

2. Mixing head (Colloidal mixer)

Technical data

Supply	230 V
Motor power	1.5 kW
Engine speed	2,750 rpm
Mixing volume	35 l
Weight	28 kg
L x W x H	55 x 63 x 90 cm
